OPEN-ENDED QUESTIONS

What are the primary strengths and weaknesses of the teaching assistant?

Comments

Elizabeth is wonderful! She is kind, knowledgable, dedicated, and has a great personality. She is the ideal TA.

She was really great. Having a good econ TA makes all the difference in my opinion and Elizabeth was excellent. She was well prepared for every discussion section and the worksheets were nicely curated to review the material we had just learned and show us how to work through common problem types. I never went to office hours for this class personally, but I heard good things from people that did attend. She is clearly very generous and went above and beyond her TA duties.

Elizabeth was an amazing TA. She was always super clear on everything and placed a big emphasis on not learning things by heart but rather understanding them. Every time she walked us thorough the exercises, it was as if she were making things even clearer. Amazing TA!

She was super helpful and ran discussion in a very orderly and productive manner. She took her time answering questions and went at a pace that made it, just like in class, difficult to fall behind.

I've had Elizabeth for two classes and she's super helpful! Is responsive and explains concepts well. Also very approachable.

Very approachable and kind. Was great at answering questions, no complaints!
